

MIRADO™ Stainless Steel Sinks

CARE & MAINTENANCE

Stainless Steel Sinks

- * Rinse thoroughly after each use and towel dry to prevent mineral deposits from building up on the surface of the sink.
- * Always apply stainless steel cleaner/polish with a nonabrasive cloth or sponge, working with, not across, the grain.
- * Do not use steel wool, wire brushes, abrasive cleansers or pads.
- * Cleaners containing chlorides are not recommended. If used, rinse the surface immediately to prevent corrosion.
- * Do not use rubber mats or dishpans in the sink to protect the finish.
- * Do not leave wet sponges, cloths or cleaning pads on the sink. This can lead to surface rust.
- * Be sure to dry the surface after cleaning to avoid water spots.

Undermount China Lavatory Bath Sinks

- * Rinse thoroughly and use a soft cloth to wipe the product dry after each use.

Soft abrasive cleaners may be used when necessary. Strong abrasive cleaners will scratch and dull the surface.
